Letter to support the re-election of Fundacion Avina

Dear Electors of the GAP,

The European Foundation Centre (EFC) would like to express its strong support for the re-election of Fundación Avina with Mr. Luis Miguel Artieda as their representative.

Fundacion Avina is a key member of the EFC’s Funders’ Forum for Sustainable Cities which works towards environmentally, socially, and economically sustainable cities. As a foundation they work throughout Latin America and are currently expanding to other parts of the Global South.

As we move from advocating for the New Urban Agenda to implementation, collaboration among different partners and different parts of the world is absolutely vital. There are few organisations which embody this collaborative spirit as much as Fundación Avina, who are always open to and proactively looking for partners in their initiatives.

It has been a pleasure for the EFC to Co-Chair the GAP PCG for Foundations and Philanthropies with Fundacion Avina and we would encourage members to support their re-election as Co-Chair.

Gerry Salole
Chief Executive
European Foundation Centre
